

Mercy Works, a not-for-profit organization is the sponsor and organizer of:

# Summer Robotics Class

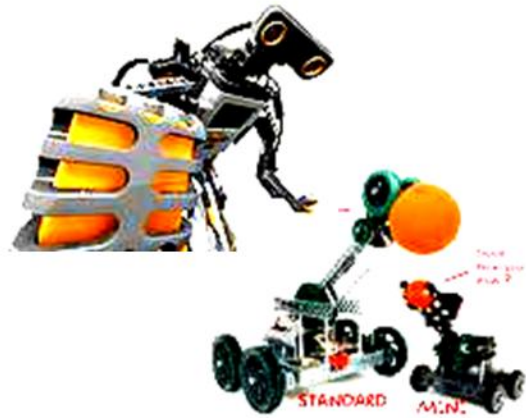

An Advance Teen Tech Class

Initial Session begins:  
**July 13—Aug. 19**  
Tuesdays, Wednesdays, Thursdays evenings  
5-30 p.m.—8:00 p.m.  
at  
**The Vision Center**  
1221 S. Salina Street

## Taking technology to the next level!

The Advanced Teen Tech Summer Robotics Course is designed to take Teen Tech grads to the next level of tech programming at the Vision Center. In this free, hand-on class students will build, program, and test a variety of LEGO MINDSTORMS NXT robots, and explore building sturdy structures, working with gears, and computer programming in NXT-G. Whether students are brand new to programming and robotics or an aspiring engineer, they will expand their knowledge while having fun.

Clip and return in person to the Vision Center or by mail or fax to:
